

	Full Name	Young-sup Yoon		
	Affiliation	Emory University Yonsei University		
	Position & Title	Bruce R. Logue Chair, Professor of Medicine		
EDUCATION & PROFESSIONAL EXPERIENCE				
Institution/Location	Degree (if applicable)	Completion Date (MM/YYYY)	Field of Study	
Tufts University School of Medicine at Caritas St. Elizabeth's Medical Center	Post-doctoral Fellow	11/2002	Cardiovascular Biology and Stem Cell Biology	
Yonsei University School of Medicine	Cardiology fellow	12/1999	Cardiology and intervention	
Yonsei University School of Medicine	Ph.D.	08/1998	Cardiovascular Medicine	
Yonsei University School of Medicine	M.D.	02/1989	Medicine	
PERSONAL STATEMENT (AREAS OF RESEARCH INTERESTS)				
<p>The overall goal of my laboratory is to develop regenerative therapy for ischemic cardiovascular diseases using stem or progenitor cells and tissue engineering. Over the past 20 years, our research has focused on developing cell-based therapy for cardiovascular disease. We have investigated the generation of stem cells, their differentiation into the cardiac and vascular lineages, generation of reprogrammed endothelial cells, and their therapeutic effects and mechanisms in cardiovascular diseases. Recently, we have successfully developed systems to differentiate human pluripotent stem cells (hPSCs), including human embryonic and induced pluripotent stem cells (hiPSCs), into cardiomyocytes and endothelial cells (ECs). We have also developed a novel technology to directly reprogram human cells into endothelial cells and other cardiovascular cells.</p>				
POSITION & HONORS				
2018	Bruce R. Logue Chair, Professor of Medicine, Emory University			
2014	Elected Member, American Society for Clinical Investigation			
2013	Professor of Medicine, Director of Stem Cell Biology, Emory University			
CONFLICT OF INTEREST AND FINANCIAL DISCLOSURE				
Nothing
